

ACTION-PLAN / CHECK-LIST

NEEDED: TO SAVE THE PLANET & HUMANITY

1). It's about having the heart  & INTELLIGENCE  so we ADAPT to a **rapidly changing**  Environment.

(That means accepting there *IS* a looming crisis).

(Currently, economies are precariously **over-dependent** on  **Non-sustainable** resources EG. **chopping down** Trees  to make **houses**, & paper).

2).  Realise... *it's not* about money (i.e. the need to make, or save money). The **PRIORITY** is to **SAVE LIVES** & **REDUCE SUFFERING**.

3). For a **change**, by **AGREE**ment , we decide to adopt a **KIND, PROTECTIVE, Healthy new** way of living to ensure the survival of the Earth, and its people.

4). Housing, Energy & Transport Needs Upgrading Quickly. 
We need MODERN (Space-Age)  designs (see: Designs / Project **it**).

5). The IDEAL material to make HOUSING/s (for shelters & transport) is (**WATER-PROOF**) resin (**NOT** derived from oil = **BETTER** HEAT Resistance & Insulation...)

6). **MASS-PRODUCE** (Tested) new shelters & vehicles... marketing these based on ability to pay i.e. **GIVE FREE** shelters to the poor, subsidised by the wealthy.

(Yes, this *IS* a **TRUE** socialist policy, but it doesn't matter what you call it).

7). Large companies (EG. Shell), should use profits  to reinvest in new **Healthy** products that are **DURABLE** - of Guaranteed Quality for a Long-life, providing these at **LOW** cost, to world-wide markets. 

8). To **strengthen communities**, teams all over the world need to be trained in the art of making these (universally-sized) new shelters and vehicles. Co-ordinate, **share** information, Technical know-how etc.

Form a new organisation  for JOINT VENTURES (via the UN).

9). Each country needs these new shelters and vehicles to  its citizens (especially the Homeless i.e. the poor, & **survivors** of disasters).

This **BASIC need** is something we all have in COMMON.

By focusing on, & **satisfying** that, **we** could end Wars, Corruption & **significantly** reduce crime & drug / alcohol addiction i.e. help **end** depression & **confusion**.

INTEGRATE the estranged... form **united**, self-sustaining communities.

NOT using traditional  building materials = **We Survive** + **we PROGRESS** (as a result of Affordable, **sustainable** growth to Benefit The People).

10). Harness **Alternative Energy** to Ensure A **SAFE** Future. Use a **Wise combination** EG. Powerful solar-corporation quality Solar cells + mini Wind (resin) turbine/s... so that **EVERY HOME** & building **HAS THEIR OWN ENERGY SUPPLY.**

(To avoid  dependence on a national grid / ugly pylon system, **with** power **cuts**, + **eliminate Pollution** from power stations). (Existing power suppliers could reinvest in **Renewables** & sell the new, LOW-cost Equipment).

11). De-commission **Nuclear** power stations **BEFORE** the **STORMS** come! 

(Outer) **Seal Radioactive waste** in **NON-Biodegradable, Water-proof, Super-Strong** resin.

12). Don't **consume!** *It's time to give something back.*

Don't **mass-incinerate** "rubbish."

Communities, not private companies, must benefit from this valuable resource.

Don't make anything that cannot be recycled.

Package goods using re-usable containers

(i.e, switch to a **HEMP** based Economy - make Bio-Plastics & **Chlorine-free** paper).

13). Use (rich) Human waste to make dried pellets = Fertiliser.

Encourage everybody to **plant new TREES**

& use this **FREE** resource to **Speed the Growth of TREES**

- so our (thin) **Oxygen supply** does not **deplete**.

14). Use redundant farm-land, waste-land, brown field sites, & sites designated for **traditional new-build houses**, to make **Beautiful Parks** for the new-styles of shelters, to enable young and old, who **care** about the Environment, to live as SELF-SUFFICIENTLY as possible i.e. **widen CHOICE**, to Facilitate **GREEN LIVING...**

Aim: Organic agriculture & Prosperity via **FREE Abundant** food.

15). **We need Desalination** units, by the sea, using Wave, Wind & Solar power to pump... to avoid drinking water **shortages** i.e. (Nation-wide / world-wide) **Community-owned** resources. (Start by helping to cool the Palestinians...)

16). **SET A DATE** for a **complete switch-over** from **combustion** to **Alternative Energy**. Meantime, don't **BURN** precious **Bio-oil**.

17). Governments must **URGENTLY** legislate

- a). to stop private companies **drilling HUGE HOLES** in the planet
- b). to **PROTECT existing FORESTS** (using the military / force if necessary) to **STOP illegal logging**
- c). to ban **nuclear** weapons i.e. we need a unilateral '**demilitarize**' programme. (For **DEFENCE** against any incoming... Asteroids – employ METHEL (Mobile Tactical High Energy Laser/s).

18). By focusing & concentrating our efforts on our survival as a **species**, **we** will, one day soon, be able to produce **AFFORDABLE**, **Non-polluting**, **SAFE SPACE CRAFTS** for **CITIZENS**

who yearn for inter-planetary **PEACEFUL**  Space Exploration.

19). This IS the FORMULA - the ONLY sane, **Practical** way forward (I have identified after 18 years of research).

20). **TIME SCALE**: **We** may only have **Approx. 5 YEARS** to **Get it Together** (i.e. by **2012**).

21). The government's 1st responsibility is to ensure **the safety of citizens**. But citizens have **NO** defence against aggressors, rampant exploitation, or **bungling**  bureaucrats.

Due to policy-makers **Failing** to make progress - **TAX-PAYERS NOW** need to pressure governments to ensure the **necessary changes needed to save Humanity** are effected. How to **ACHIEVE** that?

HUMAN POWER = **Educate** the influential... **We** can "shout '**it**' to the top."

22). We need **TEAM-WORK**- all policy-makers & citizens working **CO-OPERATIVELY** to **SAVE THE WORLD** (our HOME).

23). If the Human Race **fails** to meet these requirements, man **faces the real**

possibility of government  orchestrated **DOOMSDAY... or a natural Armageddon. SCENARIO?** **HUMAN** Beings become **EXTINCT**. (That is how **serious** this situation is).

24). **Work TOGETHER** - our **children** deserve a **Secure, Decent** future, and a **HAPPY** life.
